superior edge...

superior quality

The philosophy of quality can only start at the beginning. Research into the fabric selected, ultimately for the market which the garment is styled and the care factors which best complement the performance of the material are two critical components when assessing quality. Garment design and construction is managed by strict specifications that have recognised standard tolerances.

We guarantee Superiorfit quality!

superior style

Styling can only be conceived with a specific market in mind.

At Superiorfit we have established younger contemporary options available in the Essentials and Basics ranges. In keeping with the extensive age profile of the workforce we also provide a flexible size range for most body shapes.

superior service

The aim of Superiorfit is always to provide a quick pick 'n' pack stock service. Your order will always be treated as a priority. Our aim is not only to meet your customer service needs but to exceed your expectations.

A photograph of three business professionals walking outdoors in front of a modern office building with large glass windows. On the left, a woman with long dark hair is wearing a black blazer over a light green collared shirt and a black knee-length skirt. In the center, a woman with blonde hair is wearing a black blazer over a white and blue striped collared shirt and black trousers, carrying a brown shoulder bag. On the right, a man with dark hair is wearing a black suit jacket, a white dress shirt, and a striped tie. All three are smiling and looking towards the right. The text 'essentials woman' is overlaid in red at the bottom center of the image.

essentials
woman

A man in a black suit is standing in a modern building, talking on a mobile phone. He is leaning against a white pillar with his right hand. The background shows a revolving door with the word "EIGHTON" on it. The overall scene is brightly lit, suggesting an indoor or well-lit outdoor area.

URBAN FIT

Urban style means urban fit. The urban fit is all about contemporary male styling. Shirts are spread in the collar, straight line from under the arm and wider cuff. Fabrics are stretch and their design can be complemented from the tie range designed for the shirts.

Clean contemporary lines of the new jacket over the urban shirt will take you from the office to the restaurant.

Short sleeve basic shirt 13305 in navy/teal diamond print.

superior style tips

A smart, well co-ordinated uniform projects ones confidence and power in business. Therefore choosing the right styles and knowing how to wear them are important, as is correct care for your corporate wardrobe.

Care for your garments

Over exposure to dry cleaning chemicals wreaks havoc on fabric fibres and considerably shortens a suit's lifespan. You should never apply a hot iron to your suiting as it may destroy the fabric fibres.

For stain removal or pressing, have them spot cleaned and steamed professionally by a reputable dry-cleaner.

To guarantee your suit a long life, keep jackets on moulded wooden hangers and hang pants by their ankles on clip hangers. Always wear suits on rotation so they get some rest and dry clean only several times a year.

A regular airing in the shade is good for your suits and relieves excess dry-cleaning.

Always follow manufacturers care instructions, never dry garments in direct sunlight, or tumble dry.

Always dry knitwear flat and hang shirts to dry. This will reduce pressing afterwards.

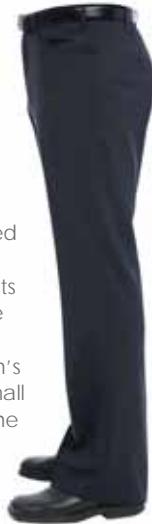

Rotate your garments to even the wear and to keep everything looking good.

Trouser length

Always ensure your pants only break once above the shoe.

The sock should never be seen.

The trouser should touch the shoe at the front and taper down towards the heel at the back.

Shirts

A business shirt size is always determined by the neck size of the collar.

Collar shape certainly reflects the individual styling of the shirt. For instance, in the Superiorfit range, the men's business shirt collar is a small pointed collar whereas the urban shirt collar is spread. Generic shirt makers generally offer regular and long sleeve lengths. In the Superiorfit range they are regular length.

Sleeve length

The jacket sleeve should line up with the thumb knuckle just below the wrist. Approximately 1.5 – 2cm of shirt cuff should show below. The shirt cuff should fit neatly on the wrist. Always cufflink or button cuffs.

Jackets

When buttoning your suit jacket, remember this rule – top button optional, centre button always and lower button rarely!

Shoes

Shoes are one of the most evaluated elements of men's wardrobes. Your shoes should be clean, shined and appropriate for the occasion.

Dress to flatter

The approach you take when selecting your corporate wardrobe will depend on your occupation. It may be classic, conservative, fashionable, contemporary or casual – but remember, you always need to create a classic, professional image.

Your unique and personal sense of style is important. The clothes you wear should reflect your own personal style and image, expressing your individuality. When you look good you feel more confident. Learn which styles complement your positive figure characteristics.

Darker pants and skirts keeps the focus away from the lower garments. Don't wear too many different lengths in one outfit – and keep the line sleek and smooth for great balance. Superiorfit offers a wide range of shapes, colours and fabrics – something to suit everyone!

Skirt length

Skirts are available in a variety of lengths. Your figure type and height will determine the length that suits you best. Jacket lengths also determine the best skirt length.

A skirt grazing just below the knee works with a shorter fitted jacket. The longerline jacket looks best with a skirt around midcalf.

Pant length

Pants should touch the shoe at the front with one small break and fall neatly to the back over the heel. Different heel heights require different pant lengths.

co-ordinates

Ties

A great tie can really make the outfit – it's an expression of your individual style.

The knot of the tie should be firm and always centred between the collar points. The half Windsor knot suits most collar shapes. Always make sure the length of the tie does not extend below the centre of the belt buckle.

From left: Pale blue tramlines, red spot, ottoman blue stripe.

Clockwise from top left:
Purple stripe, ombre navy stripe, rust stripe, silver diamond.

Belts

For men, a belt is essential with a trouser. Always match the belt with the shoes

For women, skirts and pants with belt loops must have a belt. Keep the belt plain and classic to ensure an appropriate corporate image.

Scarves

Accessories can make the outfit. A colourful scarf can add life and individuality to your suit or blouse. There are various ways to wear a scarf – cravat style, knotted at neck, hung loosely under collar.

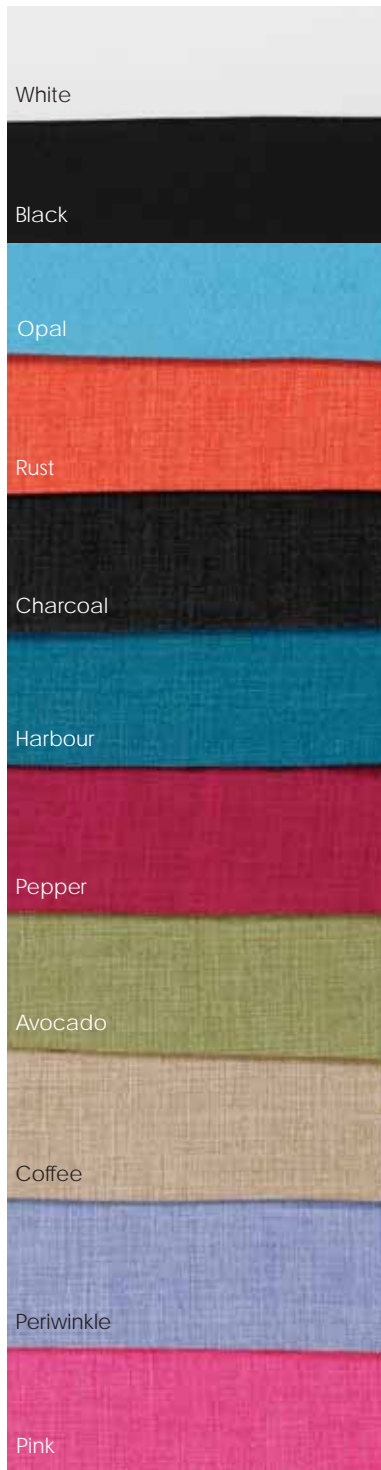

Scarves on dresser, left to right:
Red streak scarf, yellow streak scarf, blue cube scarf.

Model wearing
blue cube scarf.

how to order

step one

Using the detailed information from the catalogue, select the style and fabric combination required.

step two

Use the size charts overleaf to select the size nearest your actual measurements.
– *If in doubt we recommend you select the larger size option.*

step three

Fill in your details on the Order form overleaf.

custom made to order:

The minimum quantity for a custom made order is 20 units per style over a size range.

ordering procedures:

Whilst we appreciate the convenience of ordering over the phone, experience teaches us that written orders, whether by fax or email, ensure accuracy. Our customer service team will happily assist in the preparation of your order, but will still require written confirmation.

product description:

Every care has been taken to ensure that the description, colour representation and specifications are as accurate as possible at the time of printing, however a slight variation in the actual goods may occur.

measure up

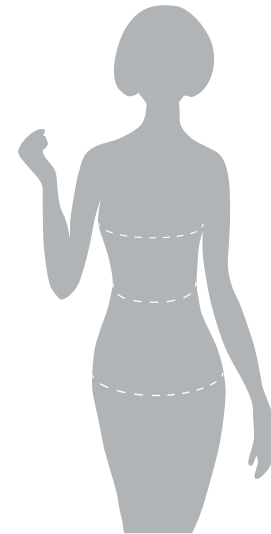

As few women and men conform exactly to a standard body chart it is important to carefully study the charts below and choose the size closest to your body measurements. If in doubt, or in the 'borderline' range, always choose the next size up. Please choose your size carefully.

The following measurements should be taken over whatever underwear you normally wear. For accuracy we recommend that someone else take your measurements according to the following guidelines:

womens body measurement chart

Bust Measure around the fullest part of bust, keeping tape parallel with waist.
Waist Measure at natural waistline, with tape level.
Hips Measure around fullest part of hips about 20-23cms below waist.

Size	6	8	10	12	14	16	18	20	22	24
Bust (cm)	83	86	91	96	101	106	111	116	121	126
Waist (cm)	62	65	70	75	80	85	90	95	100	105
Hips (cm)	91	94	99	104	109	114	119	124	129	134
Tunics	XXS	XS	S	S	M	M	L	XL	2XL	3XL

mens body measurement chart

Neck Note the neck size of your OWN well fitting shirts.
Chest Measure around the fullest part of chest. Measure well up under arms and across shoulder blades
Waist Measure around waist at the position you normally wear your trousers.
Inside leg Measure inside leg seam from the crotch seam to hem of your OWN well fitting trousers. (We suggest that you lay them on a flat surface to measure).
Jackets Mens Jackets are available in short and regular fittings (see essentials men p.44)
